

FLASH CARDS AND PCB'S

Dear Customer,

Mechan recommends that an approved engineer is to change any flashcards on Mechan lifting jacks to ensure the correct procedure is followed. Mechan will not support equipment installed, replaced or otherwise interfered with, should it be installed by an unapproved installer.

Users are reminded to acknowledge and accept the above policy of Mechan and that only trained Mechan personnel should carry out the installation work specified above to ensure adherence to the safe and correct procedure guaranteed by Mechan.

Should an issue arise, Mechan should be the first point of contact to diagnose the problem. Mechan will not be responsible for the costs incurred if this recommendation isn't followed.

Yours faithfully

Martin Dootson
Managing Director
